Scientific conferences "GEOSCIENCES" have gained recognition as the most important annual event in Bulgaria in the field of geology and become an authoritative forum of the geological community. Traditionally, the program of "GEOSCIENCES 2017" covers a broad spectrum of topics and focuses on the contemporary problems, perspectives and practical importance of the geological sciences. The conference "GEOSCIENCES 2017" provides unlimited options for presentation of all institutions dealing with geology (e.g. universities, institutes, laboratories, exploration and mining companies, etc.).

Scientific communications accepted for presentation at the Conference will be published in the Proceedings of „GEOSCIENCES 2017“, and those authors who wish to publish the full text of their presentations will gain a preference for publishing in the regular issues of the Review of the Bulgarian Geological Society.
